I am a passionate creator, obsessed with learning, coding, and collaboration to solve problems. I recently graduated from the General Assembly Front-End-Web Development course. I code almost everyday, and have a running of list of websites, apps, and everything else I plan to create. I'm seeking a Jr. role that will allow me to use my current skills and exponentially increase and broaden them through the right culture and atmosphere for learning and development.

Skills:

HTML5	jQuery	Adobe Creative Suite (PhotoShop,
CSS3	Plug-ins	InDesign, Illustrator)
Responsive Design	Git/Github	GoogleAnalytics
Bootstrap	Angularjs (beginner)	Google Fonts
JavaScript (beginner)		SQL (beginner)

Participated in:

Code Reviews	White boarding	Refactoring
Paired Programming	Prototyping	Group Collaboration
Computational Thinking	Debugging	

Education

General Assembly
Front-End Web Development
Jan 2017- April 2017
A 10-week course that immersed me in front-end technology, terminology, and everyday workflow. Completed a mini-project due every week, and a final portfolio designed from scratch.
Learned: *Skills above*
Appalachian State University
Public Relations, Marketing
Graduated May 2016

Notable Experience

Matlen Silver, Atlanta, Georgia
